

FE

**SOLUTRACE**

Technology in Balance

Advantages

BETTER ANIMAL HEALTH

OPTIMISED FOR SUMMER

CONTAINS ORGANIC CHROMIUM

COMPREHENSIVE FORMULA

EASY TO USE

A balanced blend of minerals boosted with seasonally optimum levels of zinc. Choose Solutrace FE for all conditions where a higher level of Zinc is required. Benefit from optimal energy use with KemTRACE Chromium.

**FEATURES**

- **Totally soluble**
- **Comprehensive formula** – supplies 7 essential trace elements normally depleted over the summer period.
- **KemTRACE Chromium Propionate** – highly bioavailable, organic source of chromium
- **Easy to use** – A highly soluble mineral blend that can be dosed directly into water troughs using in trough dispensers or in line dosing systems.

**BENEFITS**

Part of your Facial Eczema prevention plan.  
 Avoid mineral deficiency. Maintain balanced nutrition throughout the summer and autumn with a blend optimised for warmer months.  
 Scientific Trials show KemTRACE Chromium effectiveness against heat stress, plus production benefits.

**TECHNICAL INFORMATION**

**Dosage**

Dose rate 6 grams per 100 kgs of bodyweight.  
 Stock should not be dosed continuously at maximum rates for more than 100 days.

**Dosage Methods**

Trough

Dosing pump

Friesian Cow (500kg)  
 666 doses per 20kg bag

Friesian/Jersey cross (400kg)  
 800 doses per 20kg bag

Jersey Cow (350kg)  
 900 doses per 20kg bag

Friesian yearling (260kg)  
 1,250 doses per 20kg bag

Excludes GST and freight  
 Figures based on average liveweights

**DAIRY COW TRACE ELEMENT BLEND**

**Element**

**Elemental levels**

based on a dose rate of 30 grams

**Form (in the form of)**

Zinc	10300mg	Zinc Sulphate Monohydrate*
Copper	150mg	Copper Plexomin Chelate
Chromium	8mg	Chromium Propionate (Kemtrace)
Cobalt	10mg	Cobalt Sulphate Heptahydrate
Iodine	10mg	Ethylene Diamine Diahydro Iodide
Selenium	5mg	Sodium Selenate
Boron	22mg	DiaSodium Octaborate

**Net Bag Weight 20kg**

Mineral levels can be custom blended to herd requirements
