

OPTIPRILL®

OptiPrill Plus Zinc

A complete summer mineral supplement

As well as supplying optimum levels of zinc, this prill blend also contains good levels of Calcium, Magnesium, Sodium as well as Trace Minerals.

All of these elements are incorporated into a highly palatable prill. OptiPrill Zinc is perfectly suited to farmers wanting a summer-safe mineral. A blend built specifically for the demands of the hotter months of the season.

Hot summer weather can be stressful for cattle and supporting in-calf cows is critical to maintaining production as well as animal health through into the autumn.

As well as supporting liver health, a well formulated summer mineral blend is important in rebuilding body storage levels drawn down during early lactation.

WHAT IS OPTIPRILL?

OptiPrill is a superior mineral delivery tool, allowing the farmer to dose a full range of quality supplements, formed into a highly palatable granule.

This granule or prill is stable in grain or meal and is specifically designed for in-line dispensers or silos because it flows well and has no dust.

FEATURES

- Highly palatable with attractive molasses coating.
- Able to combine greater variety of minerals into one product overcoming previous mineral conflicts.
- Easy to use free flowing mineral in prill form readily blends into feeds. Flows through mineral dosing bins without causing bridging.
- Stable when blended with feed.
- Prill form minimises dust in the shed.
- OptiPrill is a pure mineral formulation, it contains no binders.

BENEFITS

Avoid mineral deficiency & enhance animal health with a single superior mineral product

- OptiPrill breaks down in the rumen to super fine (45 micron) particles, providing superior availability across the entire range of essential minerals.
- More effective and efficient due to excellent palatability – the amount of product fed out is the amount consumed.
- And it provides flexibility to dose minerals alongside feed, or mix into existing feed system easily.

Breaks down in the rumen to 45 micron particles of highly available mineral.

*Na is provided in a crystalline form.

ELEMENTAL COMPOSITION

OPTIPRILL PLUS ZINC

	PER 175G	PER 155G	PER 135G
Calcium	45g	39g	34g
Magnesium	5.3g	5g	4g
Sodium	2.5g	2.4g	2.1g
Zinc*	10300mg	9750mg	8550mg
Cobalt	16.8mg	21mg	18mg
Iodine	8.7mg	17.2mg	15mg
Selenium total	8mg	6.9mg	6mg
<i>Selenium</i>	<i>2mg</i>	<i>1.9mg</i>	<i>1.7mg</i>
<i>Se (Lipid Coated)</i>	<i>6mg</i>	<i>5mg</i>	<i>4.3mg</i>
Sugar	5.3g	5.4g	4.6g
Zinc (Org)	340mg	299mg	259mg
Copper (Org)	140mg	124mg	108mg
Chromium-Kemtrace	8mg	6.4mg	5.5mg

Dosing Instructions

Designed to be fed through an in-shed feeding system via:

- 1 Mineral dosing bin, dispensing the OptiPrill into the grain or meal feed line
- 2 Mineral dosing bin, dispensing the OptiPrill in-front of the cow (running through Pro-Track)
- 3 OptiPrill dosed into the feed auger after the roller mill into a mixing silo where it is blended with the grain or meal
- 4 OptiPrill pre-blended into the meal or grain at your feed-mill
