

Advantages

GOOD ANIMAL HEALTH

ENTRY LEVEL PRICING

EASY USE

When animal health issues are not a major concern DCM provides basic supplement support. This is a simple, but comprehensive blend of organic trace elements designed to balance the diet of a dairy herd.

FEATURES

- **Totally soluble**
- **Comprehensive formulation** – trace elements to enhance cow health and immunity.
- **Easy to use** - superior manufacture produces a product that is dry and free flowing.

BENEFITS

DCM leaves more money in your pocket while providing basic mineral support designed for your farm animals, all year round.

TECHNICAL INFORMATION

Each bag of product is pre-blended, dried and ground to a consistent particle size.

Mixing Instructions

These minerals are totally soluble and can be either drenched or dosed through the water system or directly into cattle feed. If this product is to be drenched with magnesium oxide (Causmag, Calmag) it is advisable to let the magnesium oxide solution settle overnight before adding the Solutrace mineral blend. Magnesium sulphate or magnesium chloride salt can be mixed in immediately.

Daily Dose Rate

The usual dose is 5 gms/dairy cow/day, this can be increased to 5 gms twice a day if deemed necessary. It is not recommended that the dose rate exceed 10 gms/day. Yearlings and dry cows 3 gms/day maximum.

Dosage Methods

Drench gun

Trough

Mixer wagon

Dosing pump

DAIRY COW TRACE ELEMENT BLEND

Elemental levels

Typical Analysis Mg's per dose @ 5 gms/cow/day

Element
