

Pentamin supplies the essentials, maximising mineral performance in your herd for every dollar spent

Pentamin SI supplies good levels of copper, zinc, selenium, iodine and cobalt to aid in reproductive performance, animal health and overall cow performance while still fitting within a tight budget.

An effective low-cost trace mineral blend with the added advantage of both inorganic and organic mineral sources.

The organic copper source ensures:

- Efficient copper absorption
- No loss of iodine from the mix
- Reduced risk of liver copper toxicity associated with PKE use

Description	Elemental levels per dose
Zinc Sulphate Monohydrate	640mg
Cobalt	6mg
Iodine (EDDI)	8mg
Copper Plexomin Chelate	100mg
Selenium (Sodium Selenate)	10mg
Net Bag Weight	25kg

Dose Rate 2.5grams/cow/day
