

CALF PROTECT

Set your calves up for success by using Calf Protect, powered by bentonite and probiotics! Bentonite is used to reduce scours and support digestion while probiotics boost gut health, helping calves overcome staggers and transition smoothly to meal feeding. This finely ground powder can be dosed in colostrum or milk, or offered free choice in the pen.

- 
- ✓ Calf tonic
 - ✓ Tastes great
 - ✓ Contains probiotics
 - ✓ Grow healthier calves
 - ✓ Improved intestinal health
 - ✓ Better adaption to meal feeding
