

# Calf Protect Grower

Calf Protect Grower supports rumen development and targeted mineral intake in Weaner calves, R1s and R2s, helping young stock stay on track through seasonal and feed-related challenges, setting them up for smoother calvings and stronger first lactations.

## FEATURES

- Targeted minerals to support growth, immunity, and tissue development
- Designed for New Zealand pasture-based systems
- Easy to feed
- Contains Probiotics

## BENEFITS

- Promotes better digestion, growth, and condition during variable pasture conditions
- Supports earlier, easier calvings and better lifetime productivity
- Helps improve coat, structure, and rumen stability in developing heifers

## DOSAGE

- On top of meal
- Free choice in paddock

### Daily Dose Rate

40-60g per calf per day

### Dosage Methods

PK trailer

Calf meal feeder

## CALF PROTECT GROWER

Element	Elemental per dose
Calcium	4640mg
Magnesium	550mg
Phosphorus	275mg
